Who We Are

IMS Forum is a global non-profit industry association dedicated to the advancement of IP Multimedia Subsystem applications and services interoperability. We are a proactive group of industry leaders, experts and visionaries focused on revenue-generating services and best practices for IMS applications convergence. The IMS Forum is the creator and organizer of IMS Plugfest™, the industry's only event focused on IMS services interoperability verification and certification.

Our Mission

IMS Forum's mission is to accelerate the interoperability of IMS applications and services, enabling enterprise and residential consumers to quickly benefit from the delivery of quadruple play voice, video, internet and mobile services over broadband via wireless, cable and fixed networks.

IMS applications and services comprise enhanced VoIP, IP Centrex / IP PBX and business unified communications including fixed-mobile converged services, videoconferencing and web-collaboration, entertainment including IPTV and gaming, IMS networks include GSM, UMTS, Wi-Fi, WiMAX, DSL, Cable and Optical.

Membership

IMS Forum members include equipment and software vendors, systems integrators, and service providers delivering cable, wireless, wireline and enterprise solutions. Our members run the gamut from small and medium-sized companies to Fortune 100 enterprises. The common thread is their shared interest in IMS.

IMS Forum focuses on three main areas:

- IMS Forum's **Plugfest and technical working groups** are involved in the creation of test plans, whitepapers, best practices and guidelines.
- IMS Forum's aggressive outbound **marketing** activities consist of press activities, analyst briefings, industry events, speaking engagements, by-lined articles, case studies and more.
- IMS Forum **Community**, a networking group of IMS software and hardware developers, test and system engineers, and business and marketing managers and executives sharing their knowledge and experience in IMS.

IMS Forum Activities

- Organizing frequent Plugfest events for IMS applications and services
- Developing a certification program for IMS interfaces including pre-certification in qualified labs
- Growing the IMS community of developers and business people
- Promoting best practices for technology, business and product requirements, deployment strategies, implementation models and reference architectures
- Providing consultancy and advisory activities for service providers and vendors
- Educating the market through conferences, seminars and whitepapers

Benefits of Membership

IMS Forum membership offers many valuable benefits including the ability to:

- Verify and certify interoperability, reduce interoperability costs, and accelerate time to market through IMS PlugFest and "IMS Certified™" participation.
- Receive 50% discount on participation in Plugfest events.
- Gain additional visibility through the IMS Forum's speakers' bureau, press activities and marketing programs.
- Showcase your company at major telecom, cable and wireless events in North America, Asia and Europe.
- Receive current market and technology information through newsletters, reports and conferences.
- Join an exclusive network of industry professionals, consultants and accredited experts.

Working Groups

- The employees of our member companies are invited to participate in a variety of working groups focused on technology, regulatory issues, education, advisory services and global marketing.

IMS Open Community

- IMS Forum is the only association hosting an open IMS community. For details, please visit our website.

How to Join

For information on joining IMS Forum visit, www.IMSForum.org. You are also welcome to call us at 1.970.262.6100 or send an email to info@IMSForum.org. We look forward to your participation.
